2. WHERE THIS PRIVACY POLICY APPLIES

This Privacy Policy applies to websites, apps, events and other services operated by Urban Quest. For simplicity, we refer to all of these as our “services” in this Privacy Policy. To make it extra clear, we’ve added links to this Privacy Policy on all applicable services.

Some services may require their own unique privacy policy. If a particular service has its own privacy policy, then that policy -- not this Privacy Policy -- applies.

It goes without saying, we can’t create an account for you without some information about you, such as basic profile details. We also collect information generated as you use our services, for example access logs, as well as information from third parties, like when you access our services through a social media account. If you want additional info, we go into more detail below.

Information you give us

You choose to give us certain information when using our services. This includes:

- When you create an account, you provide us with at least your login credentials, as well as some basic details necessary for the service to work, such as your e-mail address.
- When you create a quest, you can share with us additional information, such as details on your personality, lifestyle, interests and other details about you, as well as content such as photos and videos. To add certain content, like pictures or videos, you may allow us to access your camera or photo album. Some of the information you choose to provide us may be considered “special” or “sensitive” in certain jurisdictions, for example your racial or ethnic origins, sexual orientation and religious beliefs. By choosing to provide this information, you consent to our processing of that information.
- When you subscribe to a paid service or make a purchase directly from us (rather than through a platform such as iOS or Android), you provide us or our payment service provider with information, such as your debit or credit card number or other financial information.
- When you participate in surveys or focus groups, you give us your insights into our products and services, responses to our questions and testimonials.
- When you choose to participate in our promotions, events or contests, we collect the information that you use to register or enter.
- If you contact our customer care team, we collect the information you give us during the interaction. Sometimes, we monitor or record these interactions for training purposes and to ensure a high quality of service.
- If you ask us to communicate with or otherwise process information of other people (for example, if you ask us to send an email on your behalf to one of your friends), we collect the information about others that you give us in order to complete your request.

- Of course, we also process quests that you create as well as the content you publish, as part of the operation of the services.

Information we receive from others

We regularly monitor our systems for possible vulnerabilities and attacks and regularly review our information collection, storage and processing practices to update our physical, technical and organizational security measures.

During this period, account information will be retained although the account will of course not be visible on the services anymore.

In practice, we delete or anonymize your information upon deletion of your account (following the safety retention window) or after two years of continuous inactivity, unless:

1. we must keep it to comply with applicable law (for instance, some “traffic data” is kept for one year to comply with statutory data retention obligations);

3. there is an outstanding issue, claim or dispute requiring us to keep the relevant information until it is resolved; or
4. the information must be kept for our legitimate business interests, such as fraud prevention and enhancing users' safety and security. For example, information may need to be kept to prevent a user who was banned for unsafe behavior or security incidents from opening a new account.

Keep in mind that even though our systems are designed to carry out data deletion processes according to the above guidelines, we cannot promise that all data will be deleted within a specific timeframe due to technical constraints.
